

LEROY AI TECHNOLOGIES // COMPANY KNOWLEDGE BASE

Enterprise Profile, Product Tiering, Financial Benchmarks & Sales Strategy PDF

1. Company Background & Mission

Leroy AI Technologies Inc. is a high-growth B2B enterprise software provider specializing in AI-driven Revenue Optimization and Human Capital Intelligence. Founded in 2024, Leroy AI combines real-time financial telemetry with vector retrieval augmented generation (RAG) to help executive leadership teams maximize Annual Recurring Revenue (ARR) and optimize employee performance.

2. Product Offerings & Monetization Model

Product Tier	Monthly Pricing	Core Features
Standard Tier	\$99 / seat / mo	Core Revenue dashboard, basic telemetry, ARR metrics tracking.
Pro Vector Tier	\$249 / seat / mo	Includes Supabase pgvector search, automated RAG copilot, vector document ingestion.
Enterprise Tier	\$499 / seat / mo	Dedicated Supabase pgvector DB, custom LangGraph multi-agent workflows, executive SLAs.

3. Financial Telemetry & Target Benchmarks

As of FY26 Q2, Leroy AI achieved \$4,850,000 in Annual Recurring Revenue (ARR) and \$404,166 in Monthly Recurring Revenue (MRR). Target ARR for FY26 Q4 is \$6,500,000 (+34% growth). Current Customer Lifetime Value (LTV) is \$125,000 against a Customer Acquisition Cost (CAC) of \$8,500, producing a healthy LTV/CAC ratio of 14.7x. Net Revenue Retention (NRR) stands at 118.5%, while Gross Churn remains low at 1.8%.

4. Key Executive Team & Revenue Impact

Name & Title	Department	Revenue Generated (\$ ARR)	Key Achievement
Sarah Jenkins (VP Sales)	Sales	\$2,450,000.00	Closed Fortune 500 multi-year expansion contracts.
Marcus Vance (Revenue Architect)	Strategy & Ops	\$1,800,000.00	Designed usage pricing that lowered churn by 2.4%.
Elena Rostova (Head of CS)	Customer Success	\$1,200,000.00	Maintained 118.5% Net Retention Rate (NRR).
David Chen (Principal AI Eng)	Engineering	\$950,000.00	Engineered LangGraph copilot driving 35% upsell conversion.

5. Q3-Q4 Growth Strategy & Sales Directives

1. Transition 25% of monthly recurring subscribers to annual prepaid contracts with a 10% discount to unlock \$650K ARR in predictable cash flow.
2. Co-selling Protocol: Pair David Chen (Principal AI Engineer) with Sarah Jenkins on enterprise deals over \$250K ARR to showcase custom vector RAG integrations.
3. Churn Early Warning System: Trigger automated onboarding check-in when customer seat activity falls below 40% threshold.
